MATTHAIOS TSIRIDES

ART DIRECTOR | UI/UX DESIGNER

Summary

My name is Matthaios (Matthew) Tsirides. I'm an experienced designer and art director, I've been working on design related projects and positions for a decade with my strong suite always being websites, user interfaces and user experience.

Through my work I've had interesting choices to make as well as decisions that impact everyday users, whether is for a niche industry or something more open and accessible. I try to design with an ease-of-use approach first and come up with ways to beautify a design later.

Experience
